100 Students Impacted
Grades 4 - 8

PURPOSE: To teach the students through a beginner level of ukulele instruction.

IMPACT: The ukelele instruction brought an instrumental program to the school's music curriculum and enhanced the quality of the programming. Students learned beginning chord and note-reading and really enjoyed learning to play the instrument.

FUTURE PLANS: The school should be able to finance any future costs for ukulele music that is needed. Instruction for next year will expand upon the skills learned this year and more performances will be planned.
