25 Students Impacted
Kindergarten

PURPOSE: To alter the kindergarten classroom and bring it up to modern standards by providing more flexible seating options, STEM toys, craft supplies, games, holiday teaching tools, instruments, and more.

IMPACT: We are able to provide more hands-on learning with these new resources. Students are using things like stamps, magnets, and trying new puzzles and games for the first time; things they may not have access to at home. In addition, I am able to provide a better range of lessons using instruments and fine motor practice tools. It is crucial to have materials that cater to all students' interests.

FUTURE PLANS: This project will enhance the kindergarten classroom well into the future.
