

SCIENCE IN PRE-K

St. Mary School - Ridgefield

2022 - 2023

PROJECT UPDATE

Grant Amount: \$750

Project Cost: \$750

18 Students Impacted

PreK-3

PURPOSE: To enhance literacy, math, science and music lessons with the purchase of light tables.

IMPACT: Light tables were used to enhance literacy, math, science, and music lessons in the preschool classroom. Students used the light tables daily and learned about colors, letters, patterns, building, and social engagement. It built excitement and provided additional opportunities for hands-on learning. The children were engaged by the visual stimulation which also provided a calming effect.

FUTURE PLANS: We may consider adding light tables to other preschool classrooms.
